## JROTC Comes to CHS!

Army JROTC is a brand new program for CHS this year and is off to a very successful start. You may be wondering what is JROTC..... JROTC stands for Junior Reserve Officers' Training Corps. There are fifty-eight students in the JROTC program this year. JROTC's mission is to motivate young people to become better citizens. Academics, discipline, and fitness is the focus of this program. Students must have a positive attitude and parental consent to be qualified for this program. JROTC prepares students for boot camp. The program teaches marching, how and when to pay attention to details, motivation, and physical fitness. Over 95% of the students who attend two or more semesters of JROTC graduate from high school. Lieutenant-Colonel Gene Kilcawley stated, "I was looking forward to retiring next year until I came to Chesnee. I feel like I've died and gone to heaven. I want to continue teaching here as long as my health will let me." Sergeant Jose Salas and Colonel Kilcawley both believe the JROTC at CHS will be a strong unit. For more information contact Guidance, Sergeant Salas, or Colonel Kilcawley.
